

PROGRADE DIGITAL™ ANNOUNCES ULTRA-PORTABLE USB 3.2 GEN 2 SOLID STATE DRIVE

Equipped With Type-A and Type-C Connectors For Maximum Device Compatibility

San Jose, CA, April 3, 2025, 8:00 am PT — ProGrade Digital™, founded with a mission to provide the highest quality professional grade digital memory cards, solid state drives, hubs, and workflow solutions, announces its PG30 Ultra-Portable SSD available in 500GB, 1TB, and 2TB capacities. The PG30 Ultra-Portable SSD uses USB 3.2 Gen 2 technology, which is designed to achieve speeds of up to 10Gbits/sec and provides read and write speeds of up to 1000MB/s, and a sustained write speed of 300MB/s. The PG30 is also equipped with caps that cover the Type-A and Type-C ports, and is IP65 rated, providing water and dust resistance.

“Our new PG30 Ultra-Portable SSD provides imaging professionals with a highly portable SSD that is perfect for quick and easy, ad-hoc file transfer needs. The PG30’s relatively small die-cast aluminum body, dual USB Type A and C connectors, coupled with an impressive IP65 dust and water rating, make it an ideal choice for all imaging professionals seeking the compatibility and reliability that ProGrade is known for.”, said Josh Brewer, Product Manager of ProGrade Digital. It will be available for purchase at the end of April.

ProGrade Digital Ultra-Portable Solid State Drive Key Features:

- Read speed of up to 1000MB/s
- Write speed of up to 1000MB/s
- Sustained write speed of 300MB/s
