

4K HDMI 2.0 Adapter Cable

Seamless 4K Connectivity

Easily connect your USB-C device to any HDMI-equipped display with this compact and reliable 4K HDMI adapter cable. Supporting DP Alt Mode 1.4™, it delivers crisp 4K resolution at 60 Hz with rich 10-bit color, HDR10™, and immersive multichannel audio — ideal for professionals working with various surround-sound formats.

Whether you're presenting, streaming, or expanding your desktop, this adapter is plug-and-play ready across Windows and macOS devices — no drivers required. With robust HDCP 2.3 support and up to a 6 Gbps HDMI link rate, it ensures compatibility with the latest protected-content platforms and smooth video playback.
