

### 8K HDMI 2.1 Adapter Cable

#### Seamless 8K Connectivity

Unlock the full potential of your USB-C device with this ultra-capable 8K HDMI Adapter — built for professionals and creators who demand exceptional resolution and compatibility. Supporting DP Alt Mode 1.4™, it delivers stunning 8K @ 60 Hz visuals with high-fidelity multichannel audio for an immersive experience.

With support for HDMI 2.1 FRL mode (12 Gbps) and legacy TDMs mode (6 Gbps), this adapter works seamlessly with both modern and older (FHD) displays. HDCP 2.3 ensures secure playback of protected 4K and 8K content. Whether you're presenting, streaming, or extending your workspace, this adapter is plug-and-play ready across Windows and macOS devices — no drivers required.
