

Storage and Workflow Choice of Professionals

CFexpress A™ Single-Slot USB 3.2, Gen. 2 Mobile Reader

USB 3.2, Gen. 2 Transfer Speed

Capture and transfer high-resolution content with the ProGrade Digital PGM12 CFexpress Type A Mobile Reader. Designed for mobile video and photography workflows, the compact reader provides a high-speed connection for CFexpress Type A memory cards through a USB 3.2 Gen 2 interface. For creators working with compatible mobile devices, the PGM12 enables 4K ProRes video to be recorded directly to a CFexpress Type A card, providing a portable storage solution for high-quality video capture without relying solely on the device's internal storage.

Built for creators working in the field, on location, or while traveling, the PGM12 combines professional CFexpress Type A media with a compact mobile design. Its small form factor makes it easy to incorporate into a mobile production setup while providing the capacity and sustained performance needed for demanding video workflows. Once recording is complete, the same CFexpress Type A card can be used throughout the post-production workflow, helping simplify the process of moving content from capture to editing.

The ProGrade Digital PGM12 CFexpress Type A Mobile Reader can also be connected to a compatible laptop or computer for fast and efficient file transfers. Its USB 3.2 Gen 2 interface provides up to 10Gb/s of interface bandwidth, helping reduce the time required to offload high-resolution photos, 4K video, and other large media files. This combination of mobile recording and high-speed data transfer makes the PGM12 a versatile workflow tool for photographers, videographers, filmmakers, and content creators.

Portable and compact, the ProGrade Digital PGM12 CFexpress Type A Mobile Reader supports ProGrade Digital CFexpress Type A memory cards and connects directly to compatible USB-C devices. Whether used to capture 4K ProRes video directly to CFexpress Type A media or transfer files after a shoot, the PGM12 provides a compact solution designed to extend professional workflows from the camera to compatible mobile devices and computers.

ProGrade Digital CFexpress Type A Single-Slot USB 3.2 Gen. 2 Reader Key Features:

- Single-slot reader for CFexpress Type A cards
- Data transfer speed of up to 10Gb/s (1.25GB/s)
- USB 3.2 Gen. 2 interface
- LED indicator for data transfer activity
- Portable and compact
- Includes flexible cable that provides versatile mounting options
- Magnetized reader bottom connects reader to laptop or phone (using included metal mounting plates)
- Compatible with iPhone®, Android™, and other USB-C devices
- Dimensions: 50mm x45mm x18mm (WxDxH)
- Storage Temperature -20°C to +85°C
- Operating Temperature 0°C to +60°C
- Refresh Pro™ enabled to quickly refresh card performance and monitor card health
- Dimensions: 50mm x 45mm x 12.5mm (WxDxH)
- U.S. Patent #10,936,831
- 2 year warranty
